Netlight named Super Company – one and only 13 years in a row

Stockholm 2020-12-02

The IT and Management consultancy company Netlight is once again awarded one of the Supercompanies 2020. Only 709 of over 1 million companies in Sweden is a super company in 2020. Netlight is now for the 13th time in a row one of the top Swedish companies and the only one which has held the title for over a decade - overcoming the financial recession in 2009 and 2010.

The annual list of Sweden's "Superföretag", by the business magazine Veckans Affärer and the European Data & Analytics company Bisnode, is based on a series of key indicators such as growth profitability and financial stability for four consecutive years. All Swedish limited liability companies are reviewed, analyzed, and then ranked.

– Netlight has been on the list for 13 years now. No other company has managed this during the 16 years we have produced the Superlist. In knowledge-intensive industries, Netlight's performance is absolutely outstanding. So, from my point of view, Netlight is the symbol of the Supercompanies, says Per Weidenman, CEO, Bisnode.

– We are honored and grateful to be on this list for a full decade! Netlight is the only company who has made this list for thirteen years in a row. We are only as good as our employees, making them the superheroes that makes us a Super Company, says Erik Ringertz, CEO, Netlight.

About Netlight
Netlight is an IT and Management consultancy company helping leaders of the digital industry to be successful with over 1 300 consultants in Stockholm, Oslo, Helsinki, Copenhagen, Munich, Hamburg, Berlin, Frankfurt and Zurich.
